

DRAFT

ORDERING INFORMATION

**INFORMATION TO BE PROVIDED
when specifying or purchasing FIBERGLASS GRATING:**

1. Description of the grating - reference the standard marking system, page 7

2. Resin system for the grating – polyester or vinyl ester

NOTE: If manufacturer is to select resin system based on the environment, the following information must be supplied:

- Corrosive agents to which grating will be exposed
- Concentrations of the corrosives to which grating will be exposed
- Temperature of the corrosive that will contact the grating
- Application of the corrosives:
 - Continuous exposure (Submerged)
 - Frequent exposures not immediately cleaned up
 - Infrequent exposures that will be cleaned up

3. Slip Resistant Surface – Concave surface, embedded grit, applied grit

4. Drawings showing:

- extents of area(s) to be covered
- span direction (pultruded or rectangular mesh molded)
- supports
- critical dimensions, required clearances

5. Anchorage – reference page 19

6. Shipping Instructions

**INFORMATION TO BE PROVIDED
when specifying or purchasing FIBERGLASS STAIR TREADS:**

1. Items 1, 2, 3 above

2. Dimensions: Width and length (span) of tread or treads

3. Number of Treads

4. Anchorage

5. Shipping Instructions
